

igniting your purpose!

July 24, 2019

It has been a busy week at Spark. We've hosted two groups of prospective students from the YMCA Power Scholars program and have met with five incoming students to review the program and learn of their particular interests. We have a large number of families planning to attend our next open house on Wednesday, July 31, at 6pm. Our schedule is filling up over the next two weeks to meet with more incoming students. Everything is moving along quite quickly as we head into August.

Representatives from the NH Department of Education have visited with us to review our site, and things seem to be in great shape as we prepare to open our doors on September 3rd. Busing for our Manchester students is in the process of being firmed up, and we will be getting information out to our Manchester residents in the next few days.

The calendar for 2019-2020 will be posted soon, and the daily schedule (start and end times) should be posted next week.

We have very happy that our website is attracting quite a few new students, but we are always looking to improve every aspect of our school. Please do not hesitate to contact me at denismailloux@sparkacademynh.org if you can think of improvements to the website, either in terms of layout or content.

If you know of someone who is interested in Spark or perhaps should be, please ask them to check our website and to contact us if our school seems like a good choice for their student. The upcoming open house will also be a great opportunity for them to learn more about Spark. Time will be running out as we approach our planned enrollment for 2019-2020 of thirty students. Interested families would do best to contact us soon at admissions@sparkacademynh.org to begin the enrollment process.

We hope you are having a great summer and are looking forward to seeing all of you on the first day of school on September 3rd.

Sincerely,

Denis Mailloux
Director
